

BIO-WASTE COLLECTION AND DISPOSAL

Bio-waste Committee:

The department's bio-waste committee, plays a crucial role in overseeing the proper management and disposal of biomedical waste. Biomedical waste encompasses materials generated during healthcare activities and laboratory work that may pose a risk to public health or the environment if not handled correctly. This committee in collaboration with SMS Water Grace BMW Pvt. Ltd. is responsible for implementing procedures to ensure the safe collection, segregation, storage, transportation, treatment, and disposal of biomedical waste. They also monitor compliance with regulations and guidelines related to biomedical waste management.

The biowaste is collected from different labs in the Department every alternate day and disposed off as per the rules.

As a best practise, the waste is segregated into tissue waste (blood/tissue), biotechnology waste (agarose gels etc) and waste sharps (needles, syringes and lancets).
