Head of Department  
Department of Anthropology,  
Delhi University, New Delhi

Subject: Statement of purpose on the “Development Dialogue Initiative” of Rajasthan government and request for official dates of session interaction for the same.

Dear Professor,

For the purpose of youth participation in the process of governance, the Rajasthan government will be undertaking a series of development dialogues with students across the leading universities of Rajasthan and in the National Capital Region.

The purpose of these interactive sessions is to acclimatize and sensitize the students to various projects currently undertaken by the government of Rajasthan. For that reason, as per our earlier conversation, I request you to fix an interactive session with the students of your university who are in their final undergraduate years, or higher. Given the summer holidays and the running examinations, the government is pleased to extend the scheme to **alumni students** of your university as well.

The date of such interactive session may be fixed **at 11 am on 13th July, 2016, at the DSE campus**. You are requested to invite your faculty members, professors and lecturers to be present for the occasion. As it is designed to be a flagship scheme of the present government, students from the departments of sociology, social work, geography and economics will be joining too.

You are also humbly requested to advertise the scheme in your official website, in your facebook page and group, whatsapp groups, your official notice board, and any other media, to attract the maximum students possible.

Your campus placement officer may kindly be instituted as a liaison to avoid any possible communication gap, and be instructed to open an active, regular line of communication with me. Other details may be found on the preliminary brochure attached to this email.

Please acknowledge receipt of mail

Sincerely yours,

Haulianlal Guitte, IAS

Project Coordinator, Rajasthan Development Dialogue
